

REPORT ON LEGAL BOOKS

CABUFAL

2018-2019

During the second year of the project, for the planned acquisition in 2018 the Faculty of law University of Montenegro, with the help of the project partners had devised the list of the books for the public procurement procedure.

The consortium partners had given their recommendation on most prominent literature in the field of EU law that were purchased by their institutions in 2018 or in the previous year and that will be regularly used by the students and the professors of the Faculty of law.

The public procurement procedure was organised in the end of 2018 but this public tender had no bidders so the tendering procedure had to be repeated.

Since by the Law on public procurement there can be only one public tender for the whole year this purchase had to be postponed, and realised with the purchased planned for the 2019.

Again, the consortium partners were consulted, as were the professors of the Faculty of law, on their preferences for the books acquisition. The list was created, numbering more than 600 books, for the amount of 30,000 euros.

During the third year, the Law on public procurement was changed, so the the new and complicated procedures were introduced, resulting again with the failed tender procedures, due to the technical problems with the tender bids.

On the repeated tender procedure, the supplier was selected - the company Nova knjiga d.o.o. Ludviga Kube bb, 81000 Podgorica, Montenegro.
